

INCLUSIVITY DIVERSITY EQUITY ACCESS

COMMUNITY AGREEMENTS

1

Listen and Learn Deeply. We will honor those who are sharing, being present, and engaged in conversations that encourage growth and further understanding of those who have lived different experiences than us. We will recognize that any disagreement is not a setback, but an invitation to listen and an opportunity to learn more deeply.

2

Create a Safe, Welcoming, and Brave Space. We ensure the culture we're building as a team will be safe and welcoming, but still leave room for bravery and holding one another accountable for our words and actions. We will recognize mistakes as a part of the growth process and provide our peers with support, as we learn to correct our behavior, offer genuine apologies, and continually work toward bettering ourselves.

3

Let Go of Perfection. We will let go of our ego and learn to understand perfection does not exist. We will recognize there are multiple approaches to any circumstance and no single way, is the "right" way. We will aim to consistently improve as individuals, in order to enhance understanding and growth at a greater level.

4

Commit to collaboratively breaking down problematic dietetics culture. We will actively work to dismantle the harmful culture and norms that exist within dietetics, nutrition, health, and other interconnected fields. We will instead work to promote justice by elevating the voices of those oppressed.

5

Allow radical love, authenticity, and a passion for social justice be our foundation. We commit to prioritizing our community and fighting against systems of social oppression, we as dietetics professionals will break down our own walls – as individuals and as a collective – to show up as our whole, authentic selves in dialogue and action.
